53 This Fifth Preliminary Amendment is being filed, and the prior four preliminary
54 amendments were filed, to reassert more broadly in the claim set the full breadth of the
55 inventions disclosed in the originally filed application. Neither this Fifth Preliminary
56 Amendment nor any of the prior four preliminary amendments were prepared or filed for reasons
57 related to patentability, but rather for reasons related to current activity of parties utilizing the
58 disclosed invention.
